Seminar Title: Career Opportunities in Cyber Security

Speaker: Shobha & Srinu Mallarapu Date: 03/10/2023

The session was	Strongly Disagree	Disagree	Agree	Strongly Agree
Informative.	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Enjoyable.	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Relevant.	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Inspirational.	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Worth my time.	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

I learned something new about	Strongly Disagree	Disagree	Agree	Strongly Agree
New opportunities for CS majors	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Enhancing my career potential as a CS major	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Cyber Security Career Opportunities – 5 key takeaways from the seminar

(Need to be completed in at least 100 words in order to get credit)

- I learned that a career in cyber security has many avenues. There are many different protocols and responsibilities in the cyber security field which may require one to have sufficient experience to pursue a career in the field.
- There are many cyber security certifications available that will surely aid someone pursuing a career in cyber security.
- Recruiters for cyber security employees typically don't target beginners, so it may be very hard for entry level applicants to land a job in cyber security.
- A great way to start a career in cyber security as an entry level applicant is to pursue 'blue team' jobs.
- My main key takeaway is the cyber security is a very demanding career that demands specialization and dedication.

How can this session be improved? (write in the space below)

I think that this seminar would be great for people who have knowledge in cyber security and people who want to specialize in it but for me and possibly many other students, cyber security is very unfamiliar which makes this seminar unappealing. I think that requiring courses on cyber security or hosting an informative seminar about the basics cyber security prior to this one will help familiarize students about the field and make this seminar much more relevant and appealing.
