List 5 key differences between Startups vs. Mature Corporates?

(Need to be completed in at least 100 words in order to get credit)

- Mature corporates offer their employees better job security than startups due to mature corporates being more established and stable.
- Employer responsibilities at a mature corporation tend to be more straightforward whereas at a startup, an employer's responsibilities are more dynamic.
- Startups move at a faster pace than mature corporates, which means that the pace of work is much faster at a startup when compared to the work pace at a mature corporate.
- Compensation and benefits differ between startups and mature corporates in the sense that mature corporates tend to offer higher salaries than startups, but startups offer value in company equity.

How can this session be improved? (write in the space below)

I think this session can be improved if the speakers would display more enthusiasm in their presentation.
