New Workforce Trends in Industry – 5 key takeaways from the seminar

(Need to be completed in at least 100 words in order to get credit)

- There are opportunities to work onsite, hybrid or fully remote.
- The industry is currently realizing that hybrid work location is much preferred over fully remote. Many companies are requiring their fully remote employees to switch to hybrid and spend part of their work week in the office.
- Careers in software engineering and software developing are projected to grow at a rate of 22%.
- Implementation of AI will revolutionize the industry as it will promote creativity and make work easier and more enjoyable.
- Individuals must be productive and responsive, be willing to take on new responsibilities, and continue to learn to advance in their careers.

How can this session be improved? (write in the space below)

Greg Kiefer gave a great presentation. His presentation was very well structured and interactive. I don't think this seminar needs any improvement.
