### What are your key learnings from the Seminar?

(Need to be completed in at least 100 words in order to get credit)

From this seminar I learned about the resources that Sacramento State University offers to students to enhance and aide our careers. In particular, I learned that these resources can help students with resume building, job searching, interviews, and even salary negotiation. Since this seminar was really focused on resumes, a key thing I learned from this seminar was how to construct an effective and proper resume. I learned what to include and what not to include in my resume. Another thing that learned from this seminar was how to succeed in interviews. I learned that preparation is very important if I want to succeed in my future interviews.

### How can this session be improved? (write in the space below)

I think that this seminar can be improved by including a realistic example or demonstration of what to expect when we are interviewing for a job in the industry. Also, I think that including a discussion about salary negotiation would be very beneficial because salary negotiation is something that I think most students are unfamiliar with.
